PREFACE.

The NEWPORT DIRECTORY for 1886 is issued at the usual time, and contains much matter of interest both to citizens and sojourners during the season. The table below shows an increase in names which is gratifying, and the publishers are confident that the labor of canvassing has been as thorough and complete as is possible in a place where so many changes are constantly going on. The Directory of a city, if properly compiled, usually reflects credit upon the place for which it is issued, and is probably consulted by the public at large more than any other book of a local nature. It is as indispensable for reference as the daily newspaper, and should be found not only in business places, but at residences as well. We are pleased to note that the people generally appreciate this fact, and many citizens have already subscribed for the work. We have issued a few extra copies, and the book stores are prepared to supply those who have not already ordered it.

Our list of Summer Residents is as full and complete as it is possible to make it up to the time of going to press. All the features of merit which the book has heretofore contained have been retained, and some new ones added. With many thanks to the public who have aided us in our endeavors to make a reliable Directory, and to our numerous patrons especially, we respectfully submit our annual.

CHANGES IN THE NEWPORT DIRECTORY.

Number of Names in Directory of 1886.....	*7,585
Number of Names in Directory of 1885.....	7,383
Increase	<u>202</u>
Names added.....	1,134
Names erased.....	932
Changes in location, etc.....	<u>1,687</u>
Number of changes made in compiling General Directory.....	3,753
Additional names in list of Summer Residents.....	525

*This number includes the names of 356 persons who have died or who have removed from Newport during the year.

By comparing these figures, it will be seen that there are 3,753 alterations in a total of 7,383 names that composed the Directory of 1885, or about 50 per cent., showing that the Directory of last year is now of little value for reference.

STREET DIRECTORY.

GIVING the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect, taken from the official records.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, page 22, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park.

WARD BOUNDARIES.

[Ordinance passed by City Council of the City of Newport, Dec. 5, 1882.]

The **FIRST WARD** shall comprise that portion of the city embraced within a line commencing at a point at the extreme north point of the shore at Coddington Point, then following the shore of Coddington Cove to a point opposite the centre of a straight prolongation of the road running northerly from Sunset avenue, then running through the centre of said prolongation and said road, through the centres of Sunset avenue, Coddington avenue, Malbone avenue, Warner street, Burnside avenue, West Broadway, Marlborough street, Thames street, and Long wharf, in a continuous line, to City wharf, then around and including City wharf, and taking in all the remainder of Long wharf westerly, and following the shore, including all the wharves and docks and Coasters' Harbor Island, to the point of beginning at Coddington Point.

The **SECOND WARD** shall comprise that portion of the city embraced by and within a line commencing at the centre of Marlborough street at the junction of West Broadway, running across Broadway, through the centres of Bull street, Kay street, Ayrault street, and Catherine street, in a continuous line, directly across Easton's Pond to the Middletown line, then following the Middletown line to Coddington Cove, and along the shore of said cove to the line of the First Ward, and along the First Ward line to the point of beginning at Marlborough street and West Broadway.

The **THIRD WARD** shall comprise that portion of the city, including the docks and wharves, bounded northerly on the said First and Second Wards, and southerly on a line commencing at the centre of Kinsley's wharf at the harbor, and running thence in an easterly direction along the centre of said wharf and the centre lines of Pelham, Spring, Mill, Beach, and Buena Vista streets, continuously, and across Easton's Pond in a straight continuation of said centre of Buena Vista street, to the Middletown boundary line.

The **FOURTH WARD** shall comprise all that portion of the city, including the docks and wharves, bounded northerly on said Third Ward, and southerly and easterly by a line beginning at the centre of Lee's wharf at the harbor, and running easterly along the centre of said wharf and the centres of Young, Bowery, and East Bowery streets to the Annandale road, then northerly along the centre of Annandale road and Bath road, and easterly again along the centre of said Bath road to Easton's beach, and along the sea shore at said beach to the Middletown line: provided that said south line shall run northerly from the centre of Young street, and around the number seven engine house back to said centre of Young street, so as to include said engine house in the Fifth Ward.

The **FIFTH WARD** shall comprise all the remainder of the southern portion of the city lying south of the Fourth Ward aforesaid, including the docks and wharves.

ARLINGTON WHEAT MEAL.

AN UNEQUALLED FOOD FOR ALL.

REASONS WHY IT IS PREFERABLE TO FLOUR.

FLOUR is the only impoverished food used by mankind—impoverished by the withdrawal of the tegumentary portion of the wheat, leaving the internal or starchy portion. See the facts!

In chemistry we find that in 100 parts of substance—

Wheat has an ash of 17.7 parts;

Flour an ash of 4.1 parts—an impoverishment of over three-quarters.

Wheat has 8.2 parts of Phosphoric acid;

Flour 2.1 parts Phosphoric Acid,—an impoverishment of about three-quarters.

Wheat has 0.6 Lime and 0.6 Soda;

Flour has 0.1 Lime and 0.1 Soda,—an impoverishment of five-sixths Lime and Soda each.

Wheat has Sulphur 1.5. Flour has no Sulphur.

Wheat has Sulphuric Acid 0.5. Flour has no Sulphuric Acid.

Wheat has Silica. Flour has no Silica.

SEND FOR CIRCULAR.

BEWARE OF IMITATIONS.

For Sale by all Grocers.

Endorsed by all Physicians as an unequalled food for Invalids and Families.

Pure Wheat Meal contains more life sustaining properties than any other food.

It is a natural food for every Brain Worker, containing the necessary Elements to strengthen the Brain.

People who live mostly upon flour will, if they use the Arlington Wheat Meal, find their expenses in this department diminished three-fourths. The Wheat Meal will go further and give four times as much nutriment as an equal amount of flour.

Laboring men can do their work with less exhaustion, because it contains more Sustaining Forces than any other food.

Children who feed on this need never be troubled with Cholera Infantum which destroys so many children.

REGIMEN AND DIET.

Every effort of the mind or movement of a muscle involves the expenditure, or waste, of nervous energy and vitality, in proportion to the magnitude of the effort; these wasted products pass off with effete substances from the body, while recuperation is effected by nutrition. The loss of physical force by using Common Flour is immense, which analysis proves. First, then, make use of

ARLINGTON WHEAT MEAL,

(MADE FROM ALL THE WHEAT)

**A perfect food for Children, making them
Strong and Vigorous—also imparts
strength to the aged.**

This article contains **ALL THE WHEAT**. In the coverings of the wheat are the Phosphates which go to constitute bone and muscle, and materially assist digestion by causing the rapid decomposition of the food. It is in this way the Phosphates in Arlington Wheat Meal act, giving new power and strength to the system.

Many cases of Dyspepsia of long duration have been cured by eating Wheat Meal, and it is a positive cure for constipation.

Dogs fed by Magendie (vide Kirks & Paget's Physiology) on flour, died in forty days; other dogs fed on wheat meal bread flourished and throve. The three-fourths impoverishment of the mineral ingredients proved fatal to the first. Why should mankind suffer from living on impoverished food as they do?

The history of the Roman Empire in the time of Julius Cæsar, shows that wheat, as an article of food, combined with fresh out-door air life, is capable of producing and sustaining the highest type of physical manhood the world ever saw. The empire was built up and maintained by soldiers whose main article of food was wheat.—See *Boston Journal of Chemistry, February, 1875.*

THE FAMOUS ARLINGTON WHEAT MEAL.

AN ARTICLE THAT EVERYBODY SHOULD USE.

ITS WONDERFUL NUTRITIOUS QUALITIES.

No subject is of greater importance to the entire community than the food it consumes, as upon the latter its health and strength in a great measure depends, and therefore all our readers must be more or less interested in an edible that for its nutritious qualities is worthy of universal adoption. Our modern methods of preparing food are in many cases of such a nature as to extract the most essential properties, and while leaving it perhaps with a more palatable flavor to jaded appetites, nevertheless render it of little value for human consumption. The manufacture of flour is a notable instance of this fact, and it is a notorious fact that in its preparation it is impoverished by the discarding of the tegumentary portion of the wheat and leaving only the internal or starchy portion. Physicians and scientists generally have long recognized this fact, and the public at last have begun to give it their serious consideration. As bread is literally the "staff of life," there is the utmost necessity of employing a substitute for flour in its production.

A fitting substitute, however, has been found and placed upon the market and is widely known in all portions of the country as **Arlington Wheat Meal**. This meal has now been in use for a period sufficient in length to adequately test its merits, and has conclusively proven itself all and more than its makers claimed. It is of more value at the present time as an article of food than any material that we can call to mind, and as a restorative of physical vigor to shattered systems is worth all the medicine that the researches of pharmacy have given to the world. It is full of life and strength sustaining properties, and contains not even an atom of matter that is either hard to digest or that would be waste when introduced into the stomach. It not only does all the work of flour as food, but helps to sustain and build up the body; and if a person who hitherto has confined his diet to flour bread could eat for the same time that made of this wheat meal, he would find a radical difference in his health for the better. It increases the vital forces and strengthens the tissues, containing, as it does, the vital principle of strength contained in wheat and which renders it of such value as food, and that the bolting of flour prevents the latter from possessing.

Arlington Wheat Meal is made from the choicest selected pure white wheat and contains nothing that can possibly have the least injurious effect on the weakest invalid. In this country, where we live so fast and so quickly exhaust our energies, it promises to be a boon to the entire nation, and in the recuperation of vital energies will do much to eradicate the evils of our commercial and social habits.

This wheat meal is manufactured by Mr. S. A. Fowle, the proprietor of the **Arlington Mills**, at **Arlington, Mass.**, and is for sale by leading grocers everywhere. People who will give it a trial will find it far cheaper than flour, as it will give as much nutriment and go four times as far as a similar amount of the latter, thus reducing the expense of this department of the family larder no less than seventy-five per cent. It has received the endorsement of the medical fraternity whenever it has come under their notice, and if any of the large numbers of grocers who are among our readers will give it a trial, they will find when once fairly introduced that it is one of the readiest selling articles they ever handled.

Wheat, a natural food, contains all the fifteen elements found in the human body, and chemical analysis shows all natural foods, vegetable and animal, to contain these same fifteen elements, and nearly in the same proportion as the human body. *Deficiency of vitalizing elements is the trouble with Fine Flour.* In bolting, all but three of these needful elements are bolted out; so that one bushel of wheat, ground fine and unbolted, contains as much nourishment for the body as twelve bushels of superfine flour. Where phosphorus, the physical element of all vitality, is wanting in food, the same will be wanting in the system, and the body will come short in vital energy, or the power of endurance. Thus the wasteful expense of living on the basis of superfine flour is enormous and foolish.

Flour is mostly starch (68.7 per cent.) and contains three chemical elements, Carbon, Hydrogen, and Oxygen. The human body contains at least twelve elements besides those of starch. How, then, can flour be nutritious with about three elements, when it should contain fifteen elements in order to properly nourish and sustain the human body?

Flour is less gluten than wheat. Gluten is the albuminoid principle corresponding to the albumen, fibrin and gelatine in the human body.

EXCESS OF STARCH produces FATTY DEGENERATION, which is one cause of *Bright's Disease, Diabetes and Apoplexy*. Flour produces fat, which weakens all the tissues. **WHEAT MEAL** is a PERFECT FOOD FOR INFANTS and CHILDREN, containing all the material for a strong and vigorous constitution. It is a PERFECT FOOD for the DYSPEPTIC, as it is the best condition for gastric juice to act upon, furnishing the power to digest, feeding the nerve centres, etc. For the BRAIN WORKER it is unsurpassed, containing all the phosphatic properties which the brain demands, and without which it is incapable of endurance.

This article makes the most delicious Gems or Biscuits. Also for Brown Bread, use half Corn Meal, which will excel anything of the kind.

STORAGE WAREHOUSES

Have been provided on Bellevue Avenue, where household goods may be placed in separate rooms, and every attention will be given to have the same properly cared for. Insurance will be effected when desired.

THE ARMSTRONG TRANSFER CO., OF BOSTON,

Runs in direct connection with this Company, and our Boston patrons will find, by the use of the Transfer Companies in each city, that the annoyances incident to travelling are largely done away with.

THE MANAGEMENT

Take pleasure in announcing that having purchased and consolidated the interest of the Baggage business, together with the good-will of the same, of B. J. BURTON, BRYANT & SMITH, and HORACE CARLISLE, into a Corporation, under the name of the

NEWPORT TRANSFER CO.,

it is their intention to offer the public a well arranged, thoroughly equipped, and responsible Baggage Transfer Company, second to none found in the larger cities.

Mr. A. P. BRYANT is identified with the Company, and has been appointed Agent at the New York Depot, Fall River Line.

Messengers of the Company will be found on the incoming trains of the Old Colony R.R., and the boats of the Fall River, Wickford, and Providence Lines.

Tickets for the above Lines are on sale at our office.

Calls will be promptly made at any part of the city, and baggage checked at residence, to Boston, New York, Philadelphia, Baltimore, Washington, and other principal cities.

This feature saves the traveller the annoyance of being obliged to go to trains and boats at an early hour, to arrange for identification and checking of his baggage.
